SUMMARY

Highly skilled Laravel Developer with 5 years of experience delivering robust web applications and scalable solutions for diverse clients. Proficient in PHP, MySQL, and modern front-end and back-end technologies. Expertise in crafting seamless user experiences, API integrations, and dynamic interfaces using Laravel, Bootstrap, and JavaScript. Passionate about delivering high-quality solutions on time and within budget. I worked on over 30+ projects.

My Expertise

- **Backend Development**: Proficient in Laravel, PHP, and CodeIgniter for building robust server-side applications.
- **Frontend Integration**: Skilled in HTML, CSS, Bootstrap, JavaScript, and jQuery to create responsive and dynamic user interfaces.
- **Database Management**: Experienced in MySQL and designing efficient database schemas.
- **API Development**: Expertise creating and consuming RESTful APIs and working with JSON data.
- **Version Control**: Proficient in Git for collaborative development and version management.
- **Payment Integration**: Proficient in online payment integration in Laravel.

SKILLS

- **Programming Languages & Frameworks**: PHP, Laravel, CodeIgniter
- **Front-End**: Bootstrap, JavaScript, jQuery, AJAX, HTML, CSS
- **Databases**: MySQL
- **APIs**: RESTful APIs, JSON
- **Version Control**: Git
- **Other Tools**: Postman, Composer, Nginx/Apache

PROJECTS

Apply for Visa

- Built a visa application portal with dynamic forms, user authentication, and real-time tracking using PHP and MySQL.
- Integrated third-party APIs for payment processing and document verification.
- URL: https://indian-evisaonline.org.in/

Flight Ticket Booking

- Developed a feature-rich booking system with seat selection, payment gateway integration, and ticket generation.
- Implemented a responsive UI with Bootstrap and AJAX for a seamless user experience.
- URL: https://gtm.gtholidays.in/login

Online Course

- Designed an e-learning platform enabling instructors to create courses and students to enroll, watch videos, and download resources.
- Added role-based access control for admins, instructors, and students.
- URL: https://emudy.ae/

Co-Workspace Booking

- Created a booking system for coworking spaces, with features like real-time availability, multi-location support, and online payments.

Charity Management System

- Developed a real-time donation management platform that tracks donors, projects, and funds.
- Integrated payment gateways and automated email notifications for receipts and updates.

Hospital Billing System

- Built a complete billing solution, including patient registration, invoice generation, and payment tracking.
- Ensured data security and compliance with industry standards.
- I worked for Hospital projects in Madurai, Salem.

Jewelry Management System

- Implemented inventory and order management for the jewelry business, with real-time stock tracking and custom order processing.

Car Wash Booking System

- Developed an online booking system for car wash services with scheduling, reminders, and secure payments.

Academy Management System

- Designed a comprehensive system for managing educational institutions' students, courses, and staff.
- URL: https://students.myskills.org.my/login

EXPERIENCE

Laravel Developer

[May 2019 – Present]

- Designed and developed web applications tailored to client needs, focusing on performance, scalability, and usability.
- Built and deployed responsive, secure, and SEO-friendly websites.
- Debugged and optimized existing Laravel applications to improve efficiency.
- Collaborated with clients to translate requirements into technical solutions.
- Managed end-to-end projects, including requirement analysis, coding, testing, and deployment.

EDUCATION

B.Sc(Computer Science)
[Ayya Nadar Janaki Ammal College] | [2019]

TOOLS & TECHNOLOGIES

- Laravel, CodeIgniter
- MySQL, PHP
- Bootstrap, JavaScript, jQuery, AJAX
- HTML, CSS, JSON
- Git, Postman
